

Project Sprint Planning Notes

Team: SEPT – Group 16

Sprint: 0

Date: 05/08/2022

Attended:

Scrum Master: Daniel Gao

Product Owner: Prakash Adhikari

Development team:

Nelson Ngo

Wyatt Jenkins

Rico Wu

Lucas Bui

1. Goal

What is the aim that you are trying to achieve by running this sprint?

- Complete user stories with DoD
- Create some basic wireframe designs
- Setup our Jira board & GitHub repo
- Provide appropriate estimation story points for our user stories
- Plan for sprint 1

2. Duration of the sprint

2 weeks

3. What is the team's vision for this sprint?

Which items of the product backlog will be committed to sprint backlog and why?

For this sprint, our team is responsible for writing up the user stories for the project and creating some simple wireframe designs. We will also create our own documentation and set up our infrastructure for our project

What will the potentially shippable product look like in the end? What features will it have in its working form?

For this sprint, we do not have any potential shippable product as our team is still in the planning phase and will commence development next sprint.

4. Estimation in story points

Our story points estimation will be conducted in the scheduled Wednesday tutorial class and be labelled accordingly in our user stories.
